WHO WE ARE

Bonnie answers every guest, *instantly*

Bonnie is an AI assistant that picks up the phone and answers on WhatsApp for restaurants, groups and hotels. In the guest's language, around the clock, creating the booking straight into the reservation system.

Since 2024, grown to:

1,000+ restaurants live

16 countries

20+ languages

24/7 day and night

WHERE WE'RE HEADED

The communication layer for *hospitality*

Our goal: every guest reaches the venue instantly, in any language, on any channel. And every request becomes an action inside your systems, instead of a message someone has to pick up.

TODAY

Voice and WhatsApp, everything that reaches the guest, on one brain.

EVERY REQUEST BECOMES AN ACTION

Booked straight into your systems, not left as a to-do.

READY FOR WHAT'S NEXT

When guests discover and book through AI, Bonnie is the infrastructure behind it.

BEFORE WE EXPLAIN, HEAR IT YOURSELF

Meet Bonnie in *two minutes*

Instead of talking, let's just call her now. You'll get it in seconds.

+49 322 126 19860

WHY WE'RE HERE TODAY

A partnership that runs *both ways*

We already work this way with Zenchef Netherlands: we send each other the right leads. That's exactly what we want to build with you in DACH.

→ We send you

- Venues unhappy with their current system or looking to switch
- Restaurants actively shopping for a reservation system

← You send us

- Customers asking about voice AI or a phone assistant
- Venues that want WhatsApp bookings or 24/7 availability

WHY IT MATTERS

Every missed call is *lost revenue*

The phone disrupts service

The team juggles the dining room and the handset during the rush, and the same questions never stop.

After hours it never stops

Nights, weekends, holidays, exactly when calls go unanswered.

A missed call, a lost booking

No reservation, no guest. The money quietly goes to the competition.

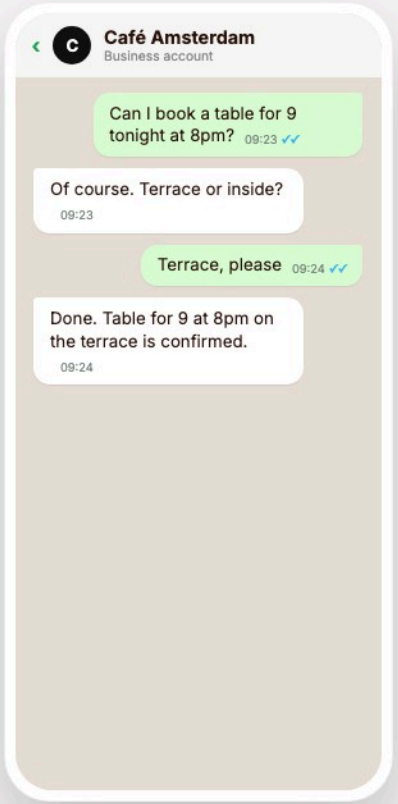

No-shows cost twice

Confirmations and reminders slip when the team is busy.

WHAT BONNIE HANDLES

A restaurant that answers *around the clock*

- Answers every call, in the guest's language
- Books, changes and cancels straight in your system
- WhatsApp and website widget on the same brain
- Transcript, summary and satisfaction in the dashboard

THE SLIDE THAT MATTERS FOR ZENCHEF

Bonnie sits *on top of Zenchef*

We don't compete with you, we build on you. Bonnie connects directly to Zenchef and creates bookings live in your system.
Formitable, now part of Zenchef, is our most complete integration of all.

Bonnie × zenchef

FULL INTEGRATION
Create, change, cancel and find the booking by phone, all straight in Zenchef.

MAKES ZENCHEF STICKIER
The venue is suddenly reachable 24/7 and loses fewer bookings. The system becomes indispensable.

LESS CHURN FOR YOU
A venue that gets more out of Zenchef switches less. Bonnie feeds your retention.

FOR EVERY KIND OF VENUE

From *beach club* to fine dining

Bonnie isn't built for one type of venue. From a laid-back beach club to a Michelin kitchen, Bonnie adapts tone, language and knowledge to each one.

Beach clubs & bars | Fine dining | Beer gardens | Bistros & brasseries | Cafés | Pizzerias & trattorias | Hotel restaurants | Event venues & groups

Every venue keeps its own tone, menu and knowledge.

BUILT FOR YOUR SETUP

One system, *three ways* to run it

1 · SINGLE RESTAURANTS

Catches the calls so the team stays with the guests. Works nights, weekends, peaks.

2 · GROUPS

Cross-selling built in: if one location is full, Bonnie points to a sister venue. One dashboard across all of them.

3 · HOTELS

Answers guest calls in their language and qualifies event requests. PMS (Mews, Shiji) on the roadmap.

FLEXIBLE SETUP

Bonnie steps in exactly *when you want*

You decide when Bonnie takes the call. From full reception to a silent backup in the background.

ALWAYS ON

Bonnie answers every call and is the first voice the guest hears.

DELAYED FORWARDING

Your team comes first: Bonnie only takes over when nobody picks up within, say, 10 seconds.

OUTSIDE OPENING HOURS ONLY

Bonnie only answers when the venue is closed: nights, days off, holidays.

LIVE AGAIN, YOUR TURN

Push Bonnie *to her limits*

Now you know Bonnie. This time you ask the questions: switch language mid-call, edge cases, tricky questions.

+49 322 126 19860

- Switch to English mid-sentence
- "Are you wheelchair accessible?"
- Request a large group

THE CONCRETE NEXT STEP

How to spot a *Bonnie lead*

You don't have to sell anything. If you hear one of these signals, hand the contact to us. We take it from there.

- "We can't keep up with the phone"
- "Is there something like voice AI?"
- "We want bookings over WhatsApp"
- "Nobody answers in the evening"
- "We get a lot of no-shows"
- "Can guests book around the clock?"

HOW THE HANDOVER WORKS

Name and venue to us (Slack channel / WhatsApp group, we'll set it up together). Or just pass on the demo number.

WHAT YOU GET BACK

We report what came of the lead, and send you venues shopping for or switching reservation systems.
